

BLEED GREEN

We had fabricated an in-house ramp tailored for ink and solvent drum loading and unloading from electric vehicle that optimizes operations and foster a secure work environment.

TRAILBLAZER

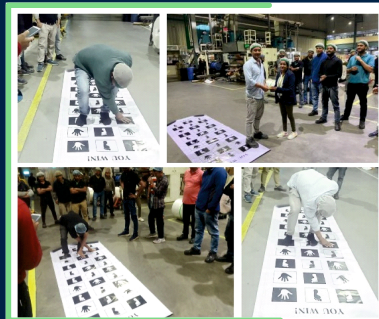

Calling all the tea enthusiasts!

We are thrilled to announce the arrival of our latest innovation of Tea pouches. We have designed packaging that's not only visually appealing but also informative. We could serve for these category since some of the local customers are now sourcing from outside Assam.

THE SOCIAL NETWORK

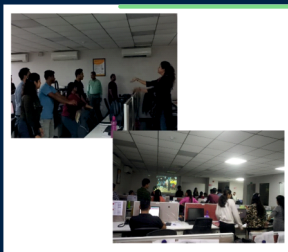

Team Manjushree understands the importance of fostering strong team dynamics and regularly organizes engaging team building activities. By organizing the enjoyable and inclusive activity, we ensure that our members engage in a lively and memorable experience.

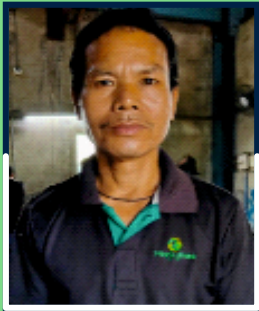

Organizing fitness sessions for our team members is an excellent way to promote health and well-being. Team Manjushree keep everyone motivated and engaged throughout workout during Fit Rahega Majushree.”

TRIVIA

Plastic packaging is mostly used to protect and keep food items fresh for consumers. Product protection actually reduces Co2 emissions by reducing product wastage.

SPOTLIGHT

In this edition we would like to congratulate Mr Luttam Rabha, Assistant of Maintenance who had completed 14 years with our Team this quarter. We thank him for his relentless service for this organisation, and hope to be associated with us for many more years.

BOND STRENGTH

Team Manjushree's enthusiastic and exciting celebration of Diwali festival created a memorable experience for all. The shared joy and happiness radiated throughout, left a lasting impression on everyone involved.

Manjushree Innovations celebrates Happy Diwali

REPORT CARD

BEACON

I, Shree Swapan Mandal continuing my service since 2009 with this group at maintenance department. I was a supervisor when I joined in 2009. Now I am in the post of Sr. Executive. Behind this success, is the support of the organization and hard working. They have trusted me even after a many mistakes. I have gained a lot of experience during this wonderful opportunity. I wish many more progress for the organization and also I feel proud as an employee of this organisation.

Sr.Supervisor, Maintenance

TRENDS

The major challenges associated with packaging are productivity, precision, and quality control. Automating the packaging processes is the big packaging trend. Packaging automation not only eliminates human errors but also ensures the safe handling of delicate products. Finally, startups also develop AI-powered vision systems that take pictures of the finished goods to analyse the package quality to increase overall efficiency.
