

BLEED GREEN

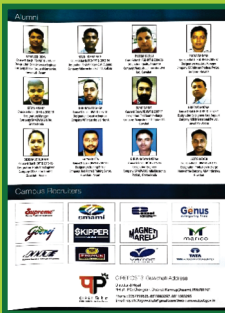

Double blower has been installed in the hot room for maintaining the right amount of temperature required as per the size and materials kept.

THE SOCIAL NETWORK

An annual eye camp was conducted for all the employees by ASG eye care to ensure the wellness of each individual working and associated with Manjushree Group.

REPORT CARD

One of our team members, Mrs. Jyotismita Devi of Quality Assurance has been honoured in the prospectus of CIPET: CSTS-Guwahati as an Alumni of CIPET Guwahati.

BEACON

On April 2004, I joined Manjushree Group as a senior operator in Slitting section. From 2016 I worked as a Supervisor and from 2019 I am working as a Senior Supervisor. In this long period, I felt I am working in an organization where every moment I am learning something better. I can proudly say that I am working with the norms of BRCGS, URSA and SEDEX. Growing criteria of Manjushree Group is amazing. Lastly I would also like to say that I shall serve for Manjushree Group as long as possible.

- MINTU DAS
Sr. Supervisor, Slitting Section

SPOTLIGHT

We would like to congratulate Mr. Bijoy Deka Sarania, Operator of Slitting department who had completed 18 years with our Team this quarter. We thank him for his relentless service for this organisation and hope to be associated with us for many more years.

BOND STRENGTH

Employee engagement sessions like Fungames and lucky draw event had been organised in Manjushree to celebrate Dipawali. Also the decoration had been done by using the scraps of Manjushree and colour papers. No other non-biodegradables had been used to promote green environment.

Over the period of time, the consumption of plastics packaging has superseded all other materials like paper and paperboard, metal and glass. The rigid as well as flexible packaging materials of Manjushree are extensively used for the packaging of a variety of products like foods, cosmetics, health care, toiletries etc. In addition, the post-consumer packaging waste in terms of collection, segregation and recycling are considered to be "need of the hour" in compliance to environmental regulation and circular economy is adhered here.

TRENDS

TRAILBLAZER

New product developed which is different from traditional jobs being processed.

TESTIMONIALS

Very happy to visit Manjushree Pvt Ltd from Godrej. Mr. Dinesh has shown great hospitality and taken us for a factory visit. Pretty amazed to see the integrated and automated facility. Wish them to do the great work continuously.

- SRIHARI J, Godrej Consumer
