

## Bleed Green

At MIPL we have introduced an innovative provision of Fresh Air Supply in Pelican printing machine with exhaust duct, coolers at the inlet end of heating blower, which results in less accumulation of solvent in air at the exhaust; reducing its impact on environment.

## Trends

Giving priority to safety, Manjushree perform eye catching and trendy activity at every level. This time our factory at Byrnihat i.e. Kakarania Innovative Systems Pvt. Ltd. made an exemplary effort and made the 11 KV transformer area safe, secure and protected by constructing the bed of the transformer area using gravel stone of 30-40 mm as per the electrical standard and by barricading the area with fencing. A danger signage is also depicted for creating awareness about the potential capacity of transformer.

## Trailblazer

Fresh food and perishable goods, require packaging that allows the products to breathe, hence micro and macro-perforations. There are two ways to perform these perforations – with a punching unit or with laser. Here in Aashirvaad Atta 5 Kg Laminate pack, we perform micro perforation across pouch length for better breathability and stackability.

## The Social Network

An Annual medical camp was conducted for all the employees to ensure the wellness and health of each individual working and associated with Manjushree Group.

## Report Card

Scan to watch

Our Director, Mr. Samir Agarwal being conferred with the prestigious SBI-Times Network SME awards on behalf of Manjushree Innovations Pvt Ltd., for the unparalleled ideas in the field of innovation and determination that are fueling the nation's economy.

The efforts in this regard got appreciated by our esteemed customers.

## Beacon

I have been experiencing very good with team Manjushree and Management. I feel overwhelmed and astonished to experience such teamwork which never seen before. Manjushree provides an excellent platform for fresher to explore and execute their core talent and also provide an imitable scope for one's professional career.

Beauty of Manjushree is encouragement, guidance, support and advice from seniors that keep us sane while chasing deadlines. I wanted to appreciate such management and express my gratitude towards such leadership, I am working for.

I believe Manjushree will be best packaging stop for entire north east and India. My wishes are always with Manjushree Group.

## Shout-out

We are delighted to share that the BRC Certification of Manjushree Innovations Pvt. Ltd. was renewed again with grade A and High Hygiene, demonstrating the Quality is never the result of one time effort. Congratulation to the team MIPL.

Also, it is an immense pleasure to celebrate that Manjushree Innovations has qualified in Godrej Goodera Sustainability Audit by implementing more new ideas and innovations.

## Bond Strength

We believe to be in-line with market trends and expectations. Hence, it needs to be constantly in touch with market pioneer and industry informatics council. Aligning this thought we have tied up our membership with Federation of Industry & Commerce of North Eastern Region (FINER) to make ourselves in-line with latest development happening across market.

## Spotlight

We would like to extend our gratitude and congratulations to **Raj Kumar Jha**, Sr. Purchase Executive, for having completed 26 years with Manjushree Family. We hope to continue scaling new heights with him.

## Testimonials

Well organized and neat & clean unique unit in North East.  
Best of wishes for setting up another unit in the other part of this state, Assam  
**Mr. Himanga Deep Das, Add. Director, DICC, Kamrup(M)**

Very well organized, polite staff, the best out of waste initiative is the best part of this company.  
All the safety standards were very much followed. Will visit again.
